

Launched in June **2025**

Georgia's first and largest private investment in the film industry.

Located in the capital city Tbilisi, a 25-minute drive from the city center. Conveniently located near the Tbilisi International Airport.

One hectare of production territory with a **1,440 sq.m** main stage (30m × 48m) and **12m** working height. Equipped with three automatic elephant doors for large-scale production and a Hisense VRF heating/cooling system.

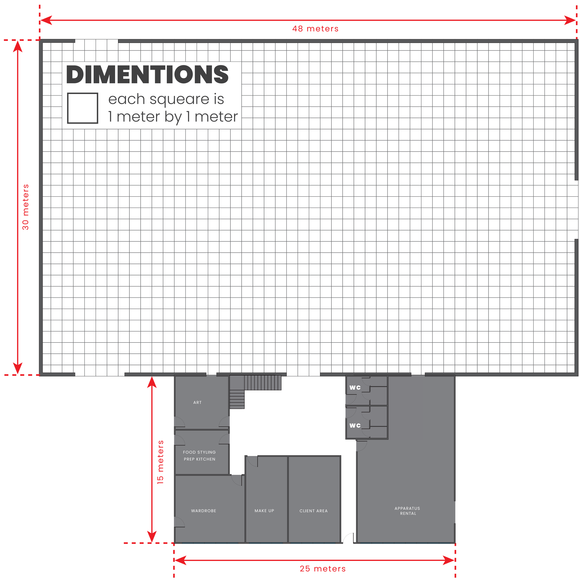

Special acoustic wall panels create an echo-free environment, ideal for sound recording and ensuring optimal working conditions in large spaces.

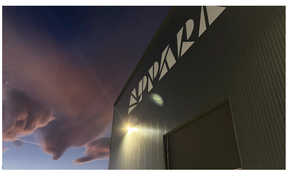

Aiming to advance Georgia's filmmaking industry and position itself as a leading destination for TV commercial and film production companies worldwide.
